Nancy: the Director forwarded your email to me for response.

Yes, from our perspective it would be appropriate for you to use a letter to amend the original statement of purpose. The letter should indicate that the committee was organized to support both the design phase and the renovation phase of the same project. As noted in the opinion, the committee must dissolve after the ballot question on the project itself.

Please call me if you have any questions.

Gregory Birne
General Counsel
Office of Campaign and Political Finance
